

# The operation of BL45XU (Automatic measurement) was changed.

## ● Divide the week's allocation into two periods(three days, four days).

- ❑ To support long-time automatic measurement by the Uni-Puck automatic exchange system.
- ❑ Operation covered for problems with interruptions in measurement.
- ❑ Extension of measurement time can be selected.

(However, it is only available when there is open beamtime.)

◆ In the Wednesday-Friday allocation, the dry shippers must arrive **Tuesday**.  
(Deadline for sample sheets is Monday)

◆ In the Saturday-Tuesday allocation, the dry shippers must arrive **Friday**.  
(Deadline for sample sheets is Thursday)

◆ Measure in the order in which the samples arrive.

\* However, the periods may change depending on the duration and number of days of the accelerator operation cycle, etc.

## Operation until the first half of 2021A

Wednesday	User-A	User-B	
Thursday	User-C	User-D	Open
Friday	User-E		
Saturday	User-F		User-G
Sunday	Open		
Monday	User-H		
Tuesday	User-A	User-B	User-D

## Operation after the second half of 2021A

Samples arrived << Tuesday
