SPring-8 Protein solution small angle scattering Beamtime Survey  
SPring-8 Program Review Committee, L1 Subcommittee

1st

2nd

3rd

Important: The name of this file should be BioSAXS"proposal number".pdf

Proposal number

Project leader

Proposal title

Purpose of this measurement

### 1. Requested shifts

(The number of allotted shifts per shift is in units of 3 shifts. )

Beamline:

Shifts:

shifts ×

times

Measuring method

SEC-SAXS

Static measurement

Other measurements (Fill in the measurement method)

Required facility equipment

### 2. Results on this protein in previous measurements (if applicable)

3. If possible, please attach a data on sample purification (Gel filtration, SDS, Analytical ultracentrifugation, DLS, etc. ). The file name should begin with the proposal number.

Explanation of the photographs.

4. Other information (for instance, days when you cannot come to SPring-8, although it may not be always possible to fulfill your request). Other comments can be provided.
